

Make an Entrance

Josette Murphy of **About Space, LLC** in El Segundo creates a charming foyer that's easy to duplicate no matter your design style. Keep the entrance space open and functional by utilizing opposite walls. On one side, hang a large mirror over a console table with a tray, ideal for storing keys and items you might need on the go. Add layers with a lamp and

interchangeable décor, like baskets and vases. On the other wall, offer seating: a bench or small loveseat. A collage of mounted frames and objects adds personalization and visual interest. Throw in a perfectly sized rug and a beautiful, hanging light fixture to tie the room together. For more on Josette, visit aboutspacestudios.com.
